

Snowfix

Designed by Caimi Lab

Snowfix is a wall mounting system for Snowsound panels that employs a support made up of two components in die-cast metal, which has been painted or satin-finished in nickel. One plate is fixed to the panel while the other is attached directly to the wall. The two parts work together to securely fix the panels.

 4 weeks

 5 year warranty

100% Recyclable

Greenguard
Gold Certification

Features

Part of the Snowsound® acoustic collection

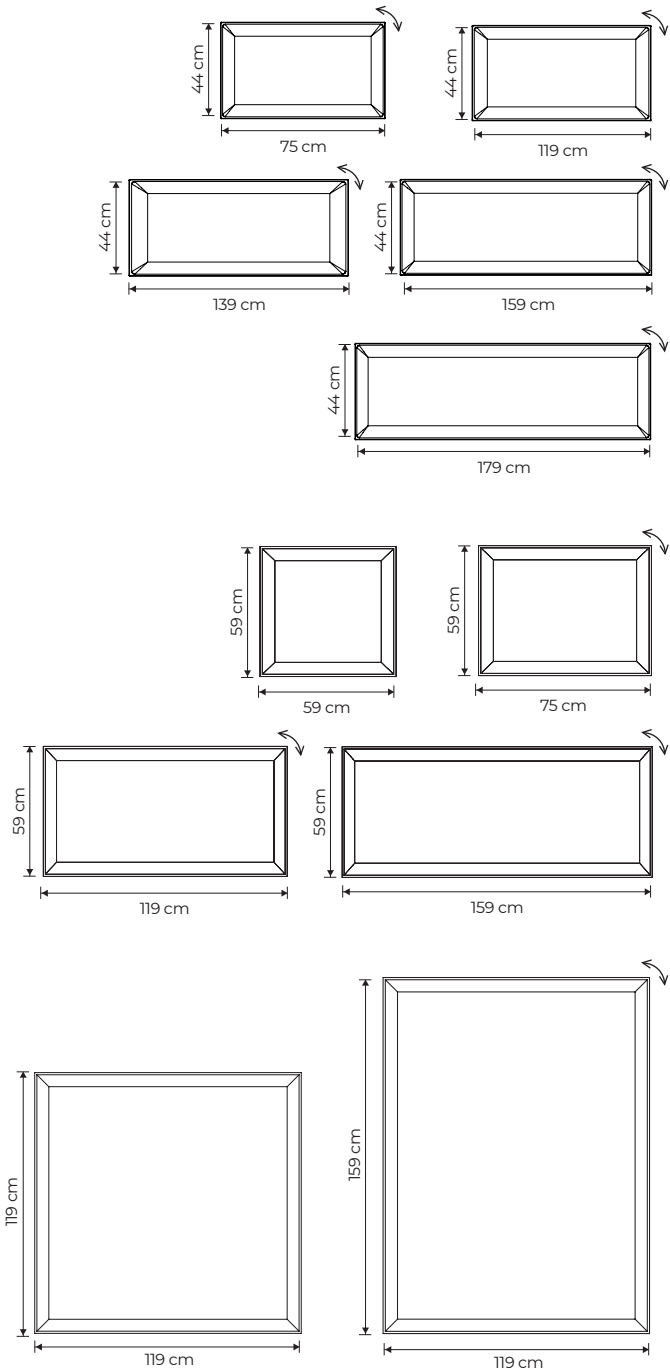

11 different size panel options

Easy fixing to wall

For full details on Snowsound® Technology please see the Ocee website
